

Financial Services Innovation Coalition (FSIC)
Statement of Support for Dominion Energy Diversity and Inclusion Efforts
August 12, 2020

FSIC would like to thank Dominion Energy for their efforts to support minority inclusion in the workforce as well as promote economic empowerment. Through their \$25 million donation to eleven Historically Black Colleges and Universities (HBCUs) they are proving their commitment to promote economic empowerment in minority communities [[see article: A \\$25M gift to 11 colleges continues investment trend in HBCUs](#)].

FSIC hopes through the continued support of economically responsible companies like Dominion Energy, some of the poorest and underserved communities in the country can start to participate in the new economy and strengthen the economy for all Americans.

The FSIC American Innovation and Opportunity Fund (AIOF) promotes Economic Empowerment and Inclusion through its Dream Creators Workforce Development Program and its Economic Inclusion Audit Task Force. FSIC believes if minority and underserved communities can participate in the modern workforce the economy will flourish for all Americans.
